

GiftCollege Group Name

GiftCollege is designed to facilitate education of field staff. One of the top priorities for supervisors of field staff is a high-quality education program with nationwide availability. GiftCollege is an ideal solution to a need for systematic education of a national field staff.

Each supervisor will have the option to name the GiftCollege group for his or her organization. When a member of the field staff registers, he or she will be given the option to enroll as part of that group. After e-mail approval by the supervisor or other representative, that student will then be part of the selected group. The supervisor report will cover GiftCollege progress of members of that named group.

Supervisors of field staff will usually create a named group account to reflect the name of their organization. After the organization account is created, field staff may request that their records be included in that named account. This will enable supervisors to encourage and reward students for making progress toward CGPA certification.

For further information, please contact GiftCollege Coordinator Lynne McGuire at 800-858-9154 or lynne@cresmail.com.

Yes, we believe that our organization group name for the GiftCollege program should be

_____.
